Dear Employer,

First of all I'd like to thank you for taking the time to review my resume and demo reel. My name is Daniel Pendzich and I'm a graduate of Cogswell Polytechnical College in Sunnyvale, California. I'm writing you regarding a Lighting Technical Director position with your company.

My most recent project was working on an animated short called, "The Offering". Lighting and rendering was my main responsibility on the project, but I also assisted with animating the main character, provided character rigs for the plant life throughout the film, adjusted shaders, and also did my share of compositing for the overall look of the final shots. Through the making of the film I've also become accustomed to working large amounts of hours in order to meet strict deadlines.

Although I'm fully capable of animating, rigging, lighting, and compositing a scene, I believe the position of a Lighting Technical Director is well suited for me. This was my position in the making of "The Offering" and from this experience I've become very comfortable in setting up scene lighting and dealing with technical issues regarding scene lighting and rendering.

I'd like to arrange an interview to further discuss my qualifications. I'd be happy to meet with you at a mutually convenient time.

Thank you for your time and consideration.

Sincerely,
Daniel Mark Pendzich
